4-1.B WEEKLY VISITS

REQUIREMENT

4-1.B All families (except 2P) are offered weekly home visits at the onset of services (including transfers and re-enrolling families) and until progress criteria are met for less frequent visits.

How is this rated?

- **Exceeds Standard (3)** - All families (except 2P) are offered **weekly visits** at the onset of services (including transfer and re-enrolling families).
- **Meets Standard (2)** - In the past, families were not offered weekly visits; however, **recent practice** (past 3 months) indicates this is now occurring with all families (*including transfers/re-enrollments; excluding 2P families*).
- **Does not Yet Meet Standard (1)** - Families are not offered weekly visits at the onset of services.

DOCUMENTATION REVIEW

- Weekly visits may be formally offered in initial consent forms and/or completion of weekly home visit records may demonstrate families receive weekly visits

TIPS FOR COMPLETING

- Status on Level 1 implies weekly visits were offered
- Families who enroll at Level 2P may start with biweekly visits before shifting to weekly on Level 1 after birth
 - **Level 1b:** Families who requested less frequent visits due to school or work may be placed on 1b (every other week visits) - staff should continue to share the option to return to weekly visits
